**DETAILED ACTION**

Claims 1-19 are currently presented and have been examined.

***Information Disclosure Statement***

Portions of the information disclosure statement filed 2 June 2005 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because reference AD is missing and the listing of reference AE has the inventor's name missing as required by 37 CFR 1.98(b)(3). It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

The information disclosure statements (IDSes) submitted on 20 October 2003 and 21 July 2006 and were submitted before an action on the merits. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

***Claim Rejections - 35 USC § 112***

Art Unit: 2143

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "controlling a first write request received" and "controlling a second write request received". It is unclear which element in the claims send the write requests.
